To R. Mather Archer, of Wheeling, belongs the credit of bringing the formation of the leigne about. Mr. Archer deserves unstinted praise, for he went about the matter in entirely a business like manner, and at some expense and considerable trouble to himself.

That the league is temporary in its organization does not belittle its importance. Under the circumstances the organization could not have been otherwise than temporary. A meeting to effect a permanent organization will be held next August, just prior to the opening of the bowling season of 1897-1898. There is a certainty that the league will then be placed upon a firmer said, it is the purpose of the promoters and organizers to begin the same are which will decide the bowling championship of the Julied States.

When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarsaparilla.

The permanent organization of the National League would mean the elimination of the Inter-state league as a distinct body, but as the four essiern cities mentioned are in New York state, the Inter-state League would really exist in fact, not in name.

It is to be regretted that Boston cannot have a club in the league. But then the Bostonians are so persistently amateurs that the mere thought of a professional team would cause a rior on Boston Common.

CHICAGO, Pèb. 12—A. telegram received from Carson City to-day, by Siler and Hogan, signed by Dan Stuart, says that the announced basing rate of one and one-lifth, or \$34.50 from Ogden to Carson, will probably be supplemented by a further reduction of the extra one-fifth. This would make the round trip rate from Chicago something like \$83.50, and from Missouri river points, \$50.00h.
